Submissions

Follow instructions for authors posted on the ALTEX website.

Cover Picture

Real time live confocal analysis of HaCaT keratinocytes and WT Fibs E6/E7 fibroblasts left untreated or exposed to UV radiation and stained with wheat germ agglutinin (green), Hoechst 33342 (blue), and propidium iodide (red) to investigate cell viability and morphology. Excerpt of Fig. 2 from Hofer et al., 231-244.

Aims and Scope

The journal ALTEX – Alternatives to Animal Experimentation publishes open access academic articles on the development and implementation of alternatives to the use of animals for scientific purposes and informs on international developments in this field.

ALTEX publishes research articles, concept articles, opinion articles, reviews, consensus reports, short communications, letters, comments, corners, and meeting reports. Current news and events are posted online.

Manuscripts submitted to ALTEX are evaluated by two expert reviewers. The evaluation takes into account the scientific merit of a manuscript and its contribution to animal welfare and the 3R principle.

ALTEX Proceedings publishes Abstract Books and Proceedings of scientific conferences. TIERethik is a German-language journal devoted to the bioethics of the relationship between animals and humans.
