### Submissions

Follow instructions for authors posted on the ALTEX website.

### Cover Picture

Photograph and H&E-stained section of chorioallantoic membrane (CAM) from an egg with teratomas (edged in red) formed after seeding hiPSCs on CAM. Excerpt of Fig. 2 from Weber et al., 442–450.

### Aims and Scope

The journal ALTEX – Alternatives to Animal Experimentation publishes open access academic articles on the development and implementation of alternatives to the use of animals for scientific purposes and informs on international developments in this field.

ALTEX publishes research articles, concept articles, opinion articles, reviews, consensus reports, short communications, letters, comments, corners and meeting reports. Current news and events are posted online.

Manuscripts submitted to ALTEX are evaluated by two expert reviewers. The evaluation takes into account the scientific merit of a manuscript and its contribution to animal welfare and the 3R principle.

ALTEX Proceedings publishes Abstract Books and Proceedings of scientific conferences. TIERethik is an open access German-language journal devoted to the bioethics of the relationship between animals and humans.
