Submissions
Follow instructions for authors posted on the ALTEX website.

Cover Picture
Embryoid bodies derived from SBAD2 iPSC with antibody staining for the ectoderm marker TUJ1 (red), the mesoderm marker SMA (orange), and the endoderm marker AFP (green), with nuclear staining using DAPI (blue). Excerpt of Fig. 3 from Murphy et al., 141-159.

Aims and Scope

The journal ALTEX – Alternatives to Animal Experimentation publishes open access academic articles on the development and implementation of alternatives to the use of animals for scientific purposes and informs on international developments in this field.

ALTEX publishes research articles, concept articles, opinion articles, reviews, consensus reports, short communications, letters, comments, corners and meeting reports. Current news and events are posted online.

Manuscripts submitted to ALTEX are evaluated by two expert reviewers. The evaluation takes into account the scientific merit of a manuscript and its contribution to animal welfare and the 3R principle.

ALTEX Proceedings publishes Abstract Books and Proceedings of scientific conferences. TIERethik is an open access German-language journal devoted to the bioethics of the relationship between animals and humans.
