European Society for Alternatives to Animal Testing

Call for papers

Subjects

- I. Toxicological effects
- II. Novel approaches/methodologies
- III. Cross-cutting issues
- IV. Regulatory application of alternative methods
- V. Free communications

Deadlines

submission of lectures: 30th April 2010
submission of posters: 28th May 2010

Full Subscription (four English issues plus

ALTEXethik):

Normal: 90 €

Library: 170 € (companies, institutes, libraries)

Student: 52 € (please fax proof of student status)

Animal Protection and Scientific Societies: 52 €

Engl.-Subscription (four English issues):

Normal: 80 €

Library: 160 € (companies, institutes, libraries)

Student: 42 € (please fax proof of student status)

Animal Protection and Scientific Societies: 42 €

NEW: ALTEXethik subscription

ALTEXethik: 15 € (German issue only)

All prices include postage and handling for all
European countries and the USA.

Additional costs for shipment outside of Europe
and USA: 20 € for 4 issues, 25 € for 5 issues.

Please ask for special subscription rates for India

Aims and Scope – Protecting More Than Animals

ALTEX, edited by the Swiss Society ALTEX Edition, is the official journal of CAAT, the Center for Alternatives to Animal Testing at the Johns Hopkins University in Baltimore, USA, EUSAAT, the European Society for Alternatives to Animal Testing (former MEGAT), t⁴, the transatlantic think tank for toxicology (Baltimore, Utrecht, Konstanz) and the Doerenkamp chairs in Germany, India, The Netherlands, Switzerland and USA. ALTEX is devoted to the publication of research on the development and promotion of alternatives to animal experiments according to the 3R concept of Russell and Burch: Replace, Reduce and Refine.

ALTEX publishes original articles, short communications, and reviews, as well as news and comments, meeting reports and book reviews. Animal experiments are defined by the editors as all experimental procedures involving the use of animals in testing, research and education or to obtain tissues, organs, and other animal derived products that may cause pain or distress to animals.

In addition to covering the biomedical aspects of animal experimentation, ALTEX is devoted to the bioethics of the complex relationship between humans and animals. Articles published in ALTEX should convey a basic respect for the dignity of living creatures and a recognition of animals as our partners. Articles devoted to the social and ethical aspects of this topic will be judged according to stringent scientific standards.

Manuscripts submitted to ALTEX are evaluated by two reviewers. The evaluation takes into account the scientific merit of a manuscript and the contribution to animal welfare and the 3R-principle.
